

PMI SOLOBAG™

A High-Strength Polymer Specimen Retrieval Bag
Familiar One-Handed Deployment to Make Specimen Capture Simple, Safe and Secure

The **PMI SOLOBAG™** is a unique specimen retrieval bag that offers familiar one-handed deployment while offering simplicity and value.

- Translucent introducer with labeling for correct orientation of bag while capturing specimen
- Polymer material that is ultra-strong, adding security during the more difficult specimen extractions

Ask us about the **PMI EXTRACTOR-EZ®**
The Perfect Complement for Safe, Simple Tissue Retrieval

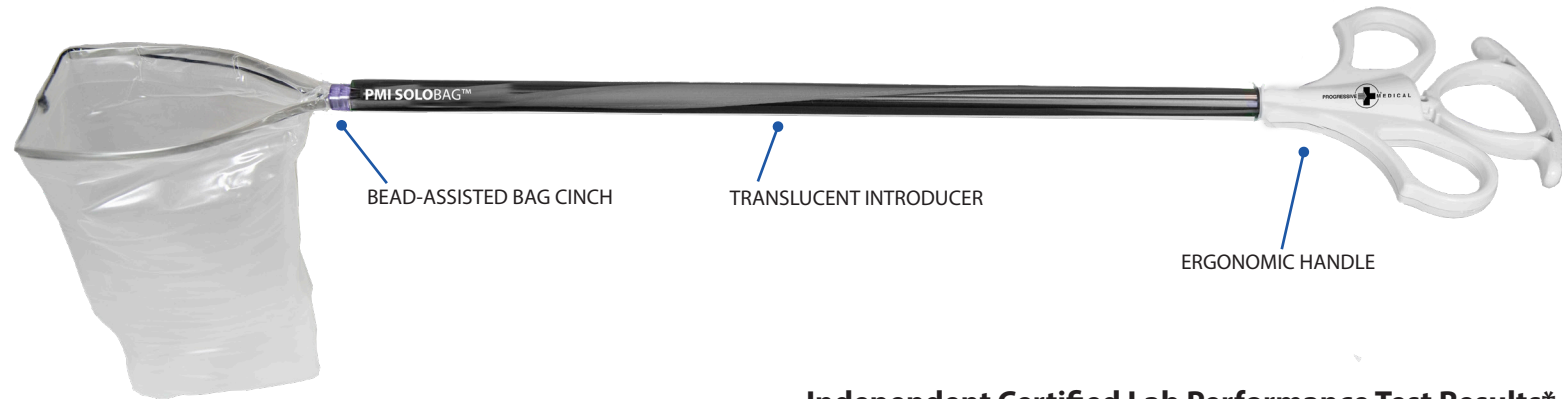

PMI SOLOBAG™ Features:

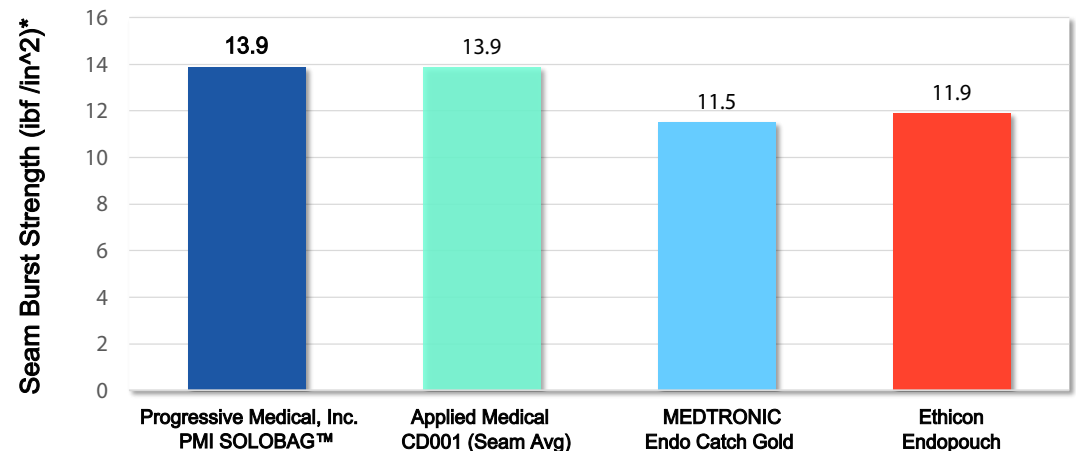

- Unique ergonomic design
- Large mouth design and increased bag capacity
- High strength polymer material, 3rd party tested
- Bead-assisted bag cinch

PMI SOLOBAG™ Benefits:

- Provides comfortable, one-handed operation
- Allows easy retrieval and capture of larger specimens
- Resists breakage during difficult specimen removals
- Provides secure closure and ability to re-open if needed
