RE: Change in Distributor

Dear Valued Customer,

On behalf of our entire GENICON team, we wish to congratulate and acknowledge Progressive Medical, Inc. (PMI) as sole distributor-agent for GENICON's branded line of Laparoscopic technology in the United States. These products include the Company's award winning single use Access Ports (Trocars/ Cannula/ Veress Needles), Electrosurgical Instrumentation, Specimen Retrieval Solutions, Lavage Products and Accessories.

Progressive Medical Inc., located at 997 Horan Drive, Fenton, MO 63026, is a nationally recognized leader in procurement, distribution and support of emerging medical device and minimally invasive surgical technologies, strategically located near St. Louis, Missouri. Since 1986, PMI has remained dedicated to providing clinically superior products that demonstrate a distinct advantage in cost, efficiency and safety.

In an effort to provide better support and service, this adjustment to your ordering, shipping and billing allows us to continue to deliver our best-in-class products with a quicker order-to-delivery turnaround time, and enhanced customer service and surgical care support. PMI's clinically trained surgical device support field representatives and management team are experts in minimally invasive technology.

A PMI representative will be contacting you shortly to help facilitate this transition seamlessly into your purchasing mechanism. If you have any questions or concerns, please feel free to contact GENICON directly at 407-657-4851 or PMI Customer Service at 800-969-6331.

Please join us in celebrating our new strategic alliance with Progressive Medical, Inc. We thank you for your continued business with GENICON and look forward to the mutual benefit of all parties.

Sincerely,

Jim Kirchberg
VP Sales & Distribution – United States
