

PMI HUBERSAFETY SETS

Huber Safety Infusion Set for Vascular Port Access

HUBER SAFETY INFUSION SET
without Y-site
6 inch tubing

HUBER SAFETY INFUSION SET
with Needle-free Y-site
8 inch tubing

Low-profile Design

Deployed Needle Encapsulating Cone

Available in a Variety of Needle Gauges and Lengths

The power-rated **PMI HUBERSAFETY SETS** are used for access of vascular ports. Patent pending telescopic needle-encapsulating cone reduces risk of needle stick injury while providing a barrier to protect against blood, fluid, and drug exposure.

Product Features:

- Safe, needle encapsulating cone upon deployment
- OSHA compliant
- Ergonomic pinch clamp for one-handed operation
- All sets are power-rated
- Textured wings and flexible pull tab enable easy and safe insertion and removal
- Lipid compatible

Patient Benefits:

- Low-profile design and soft wings ideal for patient comfort
- Not manufactured with natural rubber latex
- No DEHP-containing plastics used in device manufacture
- Once deployed, the needle is completely enclosed to reduce the incidence of needle stick injury during removal, transport,
