

# CMEA BodyGuard®

► 323 Multi-Therapy Infusion Pump ►

## Infuse **5** Therapies with **1** Small Pump

### **Antibiotics, chemotherapy, TPN, PCA, or general fluids therapy.**

Deliver a wide range of care using the CMEA BodyGuard® 323 Multi-Therapy Infusion Pump from CME America. This compact ambulatory pump can be pole-mounted at bedside or sent home with the patient.

### **Small & Lightweight.**

Fits wherever you deliver care.

### **Simple Controls.**

For most therapies, there are only three controls to use.

### **Wide Range of Flow Rates.**

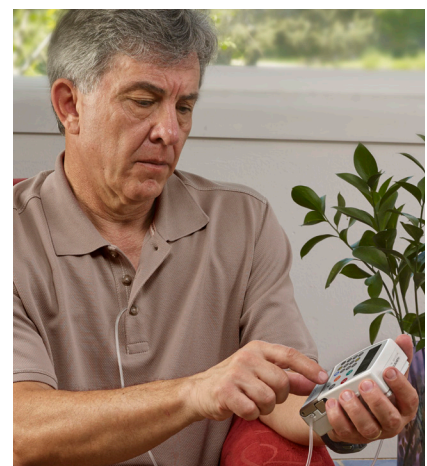

0.1 to 1200 mL/hr.

### **Simple, Stable Pole-Mounting.**

The pump's AC power charger is a sturdy pump cradle that mounts easily and securely to an IV pole.

### **Automatic Backup Battery.**

When installed in the pole-mount charger, the pump switches from AC power to battery backup whenever power is interrupted.

# CMEA BodyGuard®

## ► 323 Multi-Therapy Infusion Pump ►

### Main Features

**Five Infusion Modes.** Programmable to deliver continuous, intermittent, TPN, PCA, or 25-step infusion.

**Small & Lightweight.** Easy for patients to carry.

**Pole-Mount or Portable.** Use one pump for the hospital, clinic, or patient's home.

**Simple to Operate.** Once the pump is powered on, there are only three controls the patient needs to use for most home therapies.

**Wide Range of Flow Rates.** 0.1 to 1200 mL/hr. Permits more choices of therapy.

**Two Power Options.** Operates on AC (mains) power when installed in the pole-mount charger or on batteries for ambulatory use.

**Three Battery Options.** Choose either a standard or extended life rechargeable battery or two 9V disposable batteries.

### Key Safety Features

- **Automatic Backup Battery**
- **3-Level Access Code**
- **Maximum Flow Rate Limit**
- **Upstream & Downstream Occlusion Protection**
- **Triple Free-Flow Protection**
- **Double Air-in-Line Protection**

### Dimensions

4.5 x 3.5 x 1.6 in. (H/W/D)  
(11.2 x 8.9 x 3.9 cm)

### Weight

13.8 oz. (390 g)  
(with standard battery)

### Infusion Modes

- Continuous
- Intermittent
- Total Parenteral Nutrition (TPN)
- Patient-Controlled Analgesia (PCA)
- 25-Step (Multi-Step)

### Total Infusion Volume

- Continuous, Intermittent, TPN, 25-Step: 0.1 to 9999 mL
- PCA: 0 to 1000 mL

### Flow Rate Range

- 0.1 to 1200 mL/hr
- in 0.1 mL increments up to 100 mL/hr
- in 1 mL increments from 100 to 1200 mL/hr

### Delivery Accuracy

- ± 5%

### KVO Rate

0.1 to 5 mL/hr  
(in 0.1 mL increments)

### Maximum Pressure

Adjustable:

- 21 psi (high)
- 14 psi (normal)
- 7 psi (low)

### Air Sensor

- Ultrasonic, adjustable 0.1 to 2 mL (total air volume)

### Power Supply

100 – 240V AC, 50/60 Hz  
(10W / 0.3A max)

### Battery – 3 Options:

- One (1) Standard lithium-ion rechargeable, 7.4V 1800 mAh
- One (1) Extended life lithium-ion rechargeable, 7.4V 3600 mAh
- Two (2) 9V alkaline disposable

### Battery Life

Rechargeable battery (1800 mAh):  
Approx. 15 hours at 125 mL

### Battery Charging

- Battery charges automatically when installed in charger connected to AC (mains) power source.
- < 8 hours required to charge fully-depleted battery.

### Alert Conditions

- End Program
- Low Battery
- End Battery
- Pump Unattended
- Missing Key (administration set)
- Pump Locked
- Wrong Program Data

### Alarm Conditions

- Air/Up Occlusion
- Down Occlusion
- Door Open
- Error (system malfunction)

### BodyComm® History Download Option

Download and print a detailed infusion history for the pump.

### BodySet®

#### Administration Sets

- Connect with any standard reservoir
- Include integrated check valve
- Non-DEHP PVC
- Not made with natural rubber latex
