

# PMI PHARMACY PUMP SET

Pharmacy Pump Set with Universal Spike

## Available in Multiple Configurations

The **PMI PHARMACY PUMP SET** transfers fluids during aseptic pharmaceutical compounding. The PMI Set is compatible with the **\*REPEATER®** peristaltic style pump.

\*REPEATER is a trademark of Baxter International Inc. | Progressive Medical Inc. is not affiliated with Baxter International Inc.

## Product Features:

- Universal vented IV spike and distal male luer lock
- Packaged sterile
- PVC and DEHP free
- Not manufactured with natural rubber latex

## Product Benefits:

- Enables sterile reconstitution of medications and IV admixing
- Ideal for filling syringes, vials, elastomeric pumps, bags and bottles
- Cost-effective when compared to name brand
