Poly Introducer Style Specimen Bags

550-000-200

240mL

7.3cm x 17cm

10mm Introducer

✓ Closure string helps to locate and assist in opening mouth of bag for easy specimen placement

✓ Closure string captures and contains specimen for retrieval

✓ Semi-Rigid tab used to assist in specimen placement and bag extraction

✓ Radiopaque tab allows bag to be located via x-ray

✓ High capacity, heavy gauge material used for specimen bag minimized risk of breakage

✓ Non-rigid material for easy maneuverability during surgery
