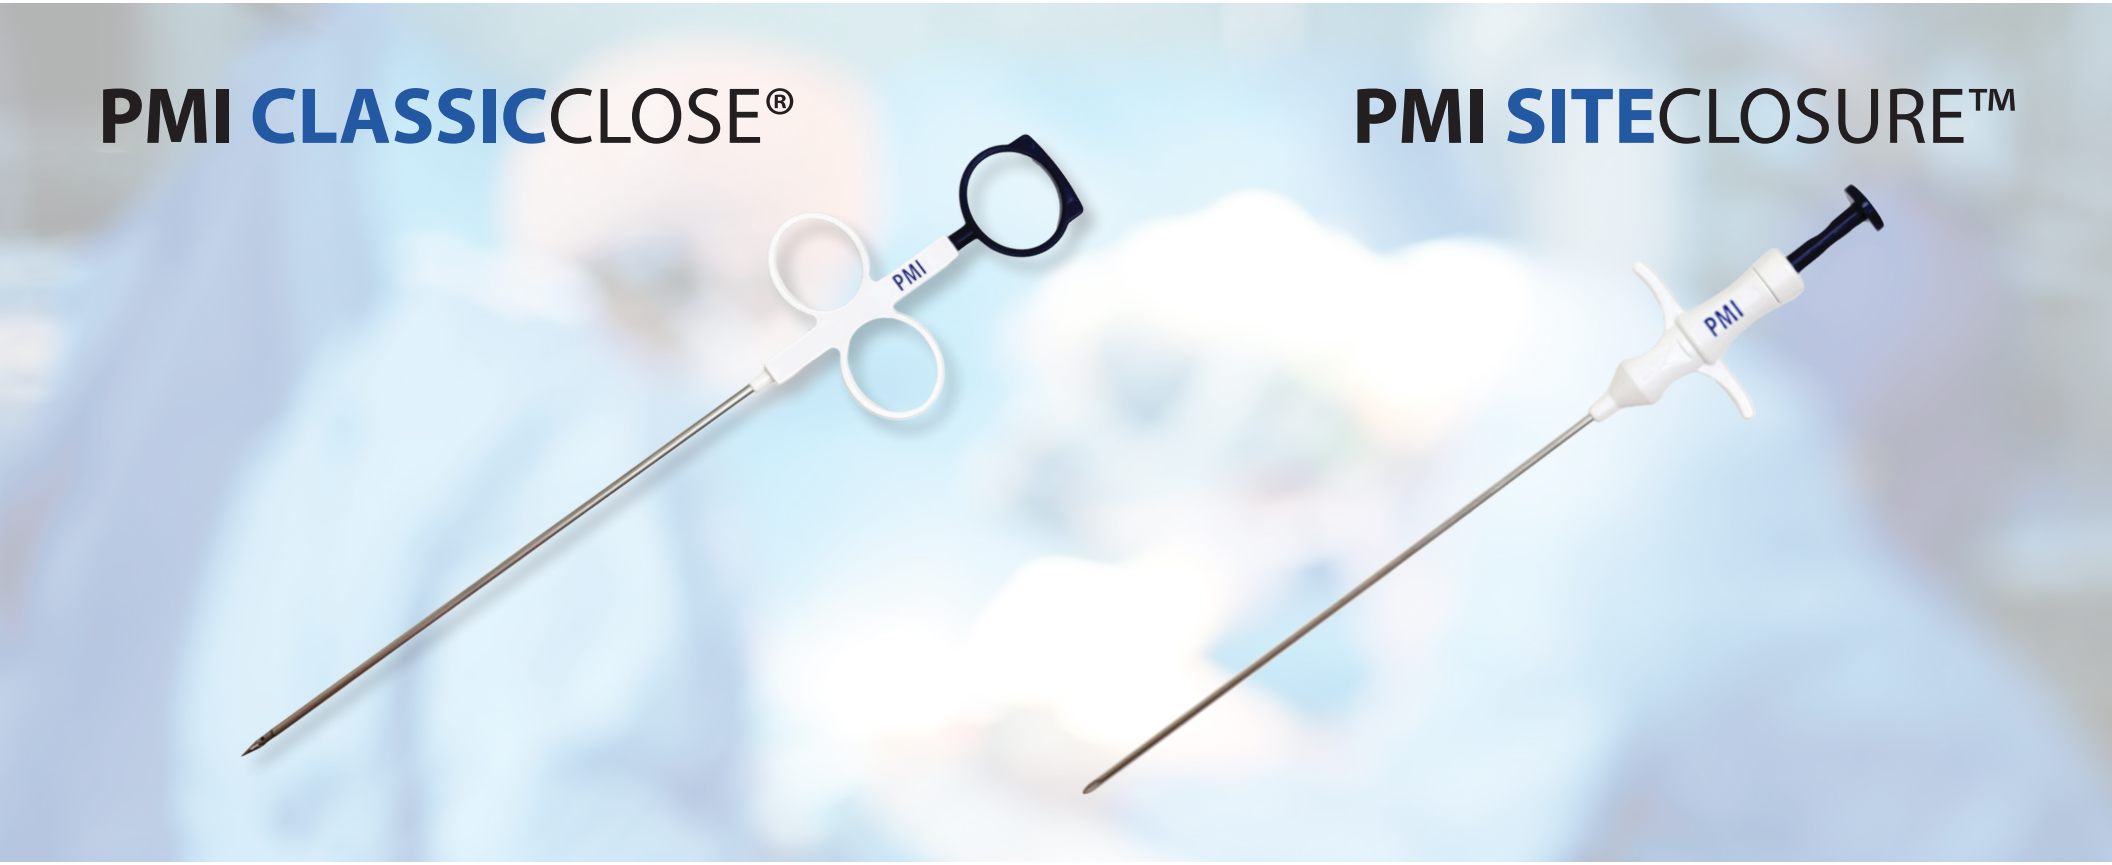
PMI Port Site Closure Portfolio

Safe, Simple, Reproducible Results | Designed to Make Fascial Closure Easy

PMI CLASSICCLOSE®

PMI SITECLOSURE™

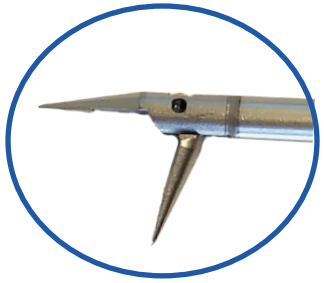


The **PMI Port Site Closure Portfolio** includes a familiar thumb ring or plunger style designs, suture graspers in regular or bariatric lengths, suture guides in different sizes, lengths, and hole configurations to fit your needs, from 5mm to 15mm.

PMI CLASSICCLOSE® - Quickly and confidently close challenging port sites, under direct visualization, while preserving pneumoperitoneum. Kits include a suture grasper in regular or bariatric length, along with suture guides and are available in different sizes, lengths and hole configurations to fit your needs, from 5 to 15mm. Available with or without PMI trocar cleaning swabs.

Features & Benefits:

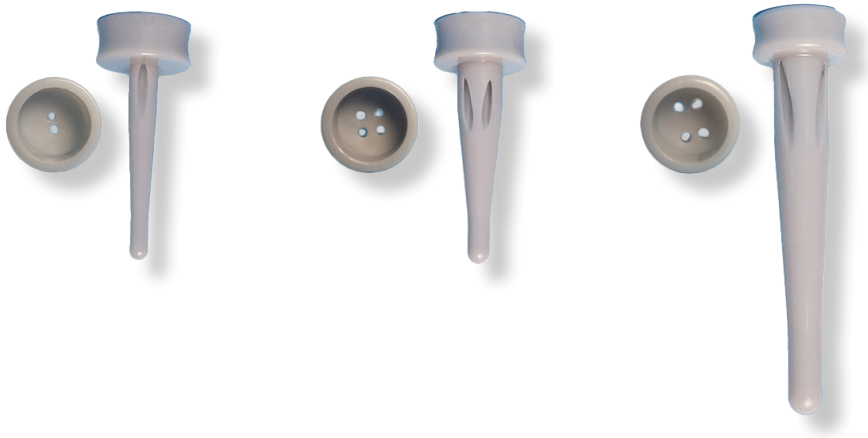
- Robust 12 gauge OD shaft
- 15cm standard and 18cm bariatric length
- Sterile, single patient use
- Familiar hinged jaw design provides secure suture grip
- Ergonomic thumb ring for easy deployment



PMI SUTUREGUIDES are available in multiple sizes for all laparoscopic procedures including bariatrics.

Features & Benefits:

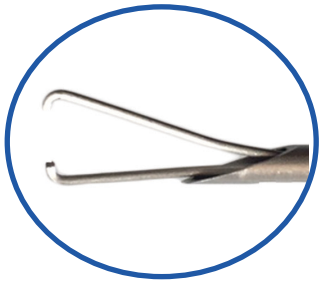
- Sterile, single patient use
- Smooth, tapered edges for safety and ease-of-use
- Angled guide holes in 2 and 4 hole configurations to enable capture of tissue with full thickness fascial closure



PMI SITECLOSURE - A versatile device which provides optimal control for laparoscopic hernia repair, site closure or percutaneous tissue retraction. Kits include a suture grasper in regular or bariatric length, with suture guides available in different sizes, lengths and hole configurations to fit your needs, from 5 to 15mm. Available with or without PMI trocar cleaning swabs.

Features & Benefits:

- 14 gauge outer diameter
- 15cm standard and 18cm bariatric lengths
- Sterile, single patient use
- Sharp tip for easy insertion
- Intuitive, retractable grasping jaws provide secure suture grip
- Ergonomically engineered handle to reduce fatigue



PMI TROCARCLEANING SWABS improve endoscopic visualization during the procedure and may reduce procedure time by enabling a quick and simple way of maintaining clear vision through laparoscopic lens cleaning. Trocar swabs come in two sizes, 5-8mm and 10-12mm.
